SKILLS SUMMARY

- **Advanced:** Python, TypeScript, Django, FastAPI, Javascript, Next.js, React.js, Node.js, Redis, Express, Docker, Tailwind, CSS3, HTML5, Vue.js, Git/Github, AWS, PostgreSQL, Linux, Nginx, Bash
- **Intermediate:** Redux, PHP, MySQL, MongoDB, CI/CD, Prometheus, Kafka, Prisma, Drizzle, Solidity, Ether.js, Solana/web3.js, Supabase, Ember.js, Flask, Ruby on Rails, ChatGPT API, Orama
- **Familiar:** Kubernetes, Rust, Java, Nuxtjs, Flutter, ReactNative, CloudFlare, Svelte, GCP, Grafana, GraphQL
- **Design and Collaboration:** Figma, Adobe Photoshop, AdobeXD, Fabric.js, Framermotion, Slack, Jira, Trello, Vercel
- **Soft Skills:** Leadership, Event Management, Writing, Public Speaking, Time Management

EXPERIENCE

- **QPe (Appernity Technologies)** New Delhi
Full Stack Engineer Sept 2023 - Nov 2024
 - **Full-Stack Development and UX/UI Design:** Developed the company's front end with compelling UX/UI, including the website (Next.js, Python, Django), seller and admin dashboards, and payment integrations. Created multiple websites for businesses, attracting 100k monthly visitors. Created scalable document management systems handling high-volume data processing
 - **International Client Projects:** Single-handedly engineered full-stack projects for international clients, developing apps such as tore.ai (React.js), app.easyvsl.com (Vue.js), tribetale.com (Ember.js/React), and usertale.com (Ruby/Vue.js).
 - **System Architecture and Cloud Management:** Created multi-user integration functionalities, secure authentication, Developed real-time tracking features and notification systems for user activity monitoring and managed server deployments on AWS and GCP, enhancing system scalability.
- **DroptheQ** Noida
Frontend Developer Aug 2022 - Aug 2023
 - **Performance Optimization:** Engineered responsive React components for restaurant service platform, reducing average page load time from 3s to 2.5s and improving user retention.
 - **User Experience Enhancement:** Pioneered feature implementations and UI optimizations, leading to a 4.5/5 star user satisfaction rating.
- **FlixStock India Pvt Ltd** Remote
UX/UI Designer / Frontend Developer Dec 2020 - July 2022
 - **Prototype Development and User Engagement:** Crafted high-fidelity Figma prototypes for 10+ key features, significantly boosting user engagement and driving rapid product adoption across multiple markets.
 - **Agile UI Design and Implementation:** Designed intuitive interfaces with Adobe Creative Suite, adhering to aggressive 2-week sprint cycles and successfully shipping 3 major UI overhauls in 6 months.

PROJECTS

- **Image Editor Whiteboard App [Live] [Github]:** Developed a feature-rich web-based Whiteboard/Image Editor with robust drawing tools, image manipulation, real-time collaboration, and export/sharing options.
Tech: Next.js, React.js, Fabric.js, TypeScript, Tailwind, Liveblocks, Zod
- **Alchemy [Github] [Work in Progress]:** Developed a scalable automation platform integrating AI, Web3, and enterprise services. Built with Django/FastAPI backend, featuring Redis caching, Celery task queuing, and comprehensive integrations with OpenAI, Google Workspace, Slack, and Web3 networks.
Tech: Python, Django, FastAPI, Redis, Celery, OpenAI API, Web3.js, Nextjs 15, TypeScript, Zustand, Shadcn, Docker
- **Krypt Web3 Wallet [Live] [Github]:** Developed a responsive cryptocurrency wallet supporting Ethereum and Solana networks with features like secure wallet creation, transaction management, and real-time balance updates.
Tech: TypeScript, Next.js, Ether.js, React.js, Tailwind, Alchemy, Solana/web3.js
- **Postmate - AI-Powered Email Client [Live] [Github]:** Developed a minimalistic, AI-driven email client with advanced features like email prioritization, full-text search, and shortcut-focused interface.
Tech: TypeScript, Next.js 14, Prisma, Kbar, Orama, PostgreSQL, Aurinko API, Shadcn, Tailwind, Vercel SDK, OpenAI API
- **Leftovers - Dating App [Github] [Work in Progress]:** Developed an innovative dating application featuring an adventure-based matching system with interactive tasks and challenges. Implemented real-time messaging, user authentication, and location-based matching with a gamified approach to user connections.
Tech: React Native, Expo Router, Node.js, PostgreSQL, TypeScript, Tailwind, WebSocket
- **Custom Content Management System (CMS) [Live] [Github]:** Built a custom CMS for E-commerce platforms to manage their stores, inventories, orders, sales, etc.
Tech: [Next.js, Tailwind, ShadcnUI, PostGres, TypeScript]

EDUCATION

- **Indira Gandhi National Open University (IGNOU)** New Delhi, India
Bachelor of Computer Applications April 2020 - April 2023
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Networking,
