SKILLS

"I am a skilled web developer and designer proficient in HTML, CSS, JavaScript, TypeScript, React, Next.js, Node.js, Git, Tailwind, Prisma, MongoDB, Express, PostgreSQL, C++, Python, Django, Framer Motion, UI/UX design, RESTful API development, Authentication & Authorization, Figma, Adobe Creative Suite (Photoshop, Illustrator), Data Structure and Algorithms, Build Tools (Webpack, Babel), and Cloud Hosting (AWS, Azure). My technical expertise spans the entire web development stack, complemented by strong soft skills in problem-solving, attention to detail, effective communication, and collaborative teamwork."

PROFESSIONAL EXPERIENCE

Aptech

- **IT Network Specialist | Nov 2019 - Apr 2020**
  - Managed IT and network infrastructure for government-conducted online exams.
  - Reduced network disruptions by 20% through optimized configurations.
  - Resolved technical issues, minimizing exam downtime by 15%.
  - Documented IT systems and improved security, resulting in a 25% decrease in security incidents.

Flixstock India Pvt. Ltd.

- **Photo Editor | Dec 2021 - Jul 2023**
  - Initiated as a Photo Editor and quickly emerged as the top performer in a team of 15-20 professionals.
  - Maintained an exceptional 2% error rate, significantly lower than team averages, ensuring high-quality work delivery.
  - Demonstrated remarkable productivity, consistently completing the highest volume of tasks within the team.
- **UI/UX Designer (Figma) | Dec 2022 - Jul 2023**
  - Transitioned to UI/UX design, specializing in wireframes and prototypes utilizing Figma.
  - Developed user-friendly and aesthetically pleasing designs, contributing to improved product interfaces.

PROJECTS

- **Genie AI SaaS**
  - Developed an AI SaaS app named Genie utilizing ChatGPT API.
  - Enabled dynamic content generation encompassing chat, code, images, audio, and video.
  - Integrated Stripe for seamless subscription management.
  - Employed Prisma with MySQL for robust data storage and Clerk authentication for enhanced security.
- **Gift Seeker Website**
  - Developed "Gift Seeker" for a client, which is an online platform for discovering and purchasing gifts for all occasions.
  - Utilized Strapi CMS for flexible content management and PostgreSQL for robust product data storage.
  - Empowered users to find and purchase gifts for any occasion and recipient from across the internet.
  - Simplified the gift-giving process by providing a diverse selection of gift options.
- **Citrus Grove Restaurant App**
  - Designed and developed the "Citrus Grove" restaurant app, incorporating table reservations and online food ordering functionalities.
  - Crafted a visually appealing and user-friendly UI template using Figma for an engaging user experience.
  - Delivered an immersive dining experience for restaurant-goers and online customers alike.
